

## 24.7.17

### Proposed Main Modification (clean version)

#### Submission SIR of Core Strategy Policy CS7 – suggested text for adoption

##### 1. Introduction

The Core Strategy was adopted in 2010. This Single Issue Review (SIR) of Core Strategy Policy CS7 was prompted by a successful High Court challenge. This resulted in the majority of Policy CS7 and elements of CS1, CS13 and para 3.12.2 being revoked from the Adopted Core Strategy. Appendix A lists those parts of Policy CS7 which were quashed, and the consequential amendments to Policies CS1 and CS13. The SIR will replace Core Strategy Policy CS7 in its entirety and as such no changes to Policies CS1, CS13 or paragraph 3.12.1 are required.

##### 2. Changes to the Core Strategy

This section sets out the specific changes to the adopted Core Strategy (2010) Policy CS7 and supporting text. It should be read in conjunction with the adopted Core Strategy.

##### 3.6 Housing Provision and distribution

###### Undertaking an objective assessment of local housing needs

- 3.6.1 National policy and guidance makes it clear that local planning authorities should undertake their own assessment of their housing needs and set an appropriate housing provision target to meet these needs. The NPPF obliges the local planning authority to set this target through a collaborative approach, and imposes a duty to cooperate with other authorities.

###### Housing Requirement

- 3.6.2 The Strategic Housing Market Assessment (SHMA) prepared in January 2016, indicated an objectively assessed need (OAN) for 340 dwellings per annum for Forest Heath in the period 2011 to 2031, or 6800 homes in total.
- 3.6.3 In August 2016 an update was prepared by the Cambridgeshire Research Group (and endorsed by Peter Brett Associates) to support Forest Heath District Council in objectively assessing and evidencing development needs for market and affordable housing. Taking account of the latest available evidence, the identified future quantity of housing needed remains at 6800 homes over the period 2011-2031, or 340 homes a year.

## **Housing provision: homes already built and additional homes required**

3.6.4 Housing completions from 1 April 2011 to 31 March 2016 total 1311 dwellings. Sites with planning permission at 31 March 2016 total 1126 dwellings. Taking account of what has already been built or planned for shows that the number we need to plan for is lower than the overall OAN of 6800 dwellings. This is shown in Table 1 below:

**Table 1 – Additional homes required**

<b>Overall number of homes over 20 years</b>	<b>Overall number of additional homes each year</b>	<b>Homes already built or planned from 1 April 2011-31 March 2016</b>	<b>Additional homes required 2016-2031</b>
6800	340	2437	4363

3.6.5 It is also important to note that further housing will also come from unallocated sites, known as 'windfalls'. These are developments that are not formally allocated, but which comply with national and local planning policies, for example: redevelopment of sites and buildings, new uses for buildings, and developing sites that contain fewer than 10 units, including infill plots in the towns, key service centres, and primary and secondary villages.

### **Housing distribution**

3.6.6 As the most sustainable places in the district to live it is intended that our towns, key service centres and primary villages should continue to fulfil their roles meeting local need, and supporting rural sustainability in accordance with Core Strategy Policy CS1, and the NPPF.

3.6.7 The key issues taken into account in identifying a suitable distribution strategy for the district included evidence of:

- the need for the distribution of growth to accord with national and local policy, in particular the existing settlement hierarchy set out within Core Strategy Policy CS1;
- the high number of environmental constraints in the district, and the need to accord with Policy CS2 and other primary legislation in respect of landscape, biodiversity and geodiversity interests;
- the availability of suitable sites in the council's Strategic Housing Land Availability Assessment (SHLAA) to meet the distribution;
- outcomes of and recommendations made by the SIR Sustainability Appraisal and Habitats Regulations Assessments;
- known infrastructure constraints, issues and opportunities;
- the consultation comments received to earlier consultations on the Single Issue Review;

- ongoing discussions with statutory consultees including Natural England, The Environment Agency, Anglian Water, Historic England, Suffolk County Council and neighbouring authorities.

3.6.8 Specific constraints and opportunities have influenced the housing distribution in each settlement. Opportunities and constraints on development are identified and detailed for each of the towns, key service centres and primary villages in the Site Allocations Local Plan.
